PROFESSIONAL SUMMARY

Full-Stack Developer with 5+ years of experience and a focus on frontend and product. I build web applications end to end with React/Next.js, Angular, and TypeScript on top of Node.js and PostgreSQL. As an independent developer I have launched a travel platform with online payments and a multi-tenant SaaS for kiosks; before that I created an Angular component library that cut repeated code by 50%.

WORK EXPERIENCE

Freelance July 2025 – Present

Full-Stack Developer

- Built and launched **Abordando**, a dual Next.js platform for a travel agency: catalog, quotations, PlacetoPay WebCheckout payments, hotel inventory through the TBO API, and deployment on AWS (S3, Amplify).
- Built **Yahisi**, a multi-tenant SaaS for kiosks (Next.js admin, SvelteKit kiosk) with real-time ordering, per-tenant isolation with row-level security on Supabase/PostgreSQL, and a public API for the devices.

Stack: Next.js, SvelteKit, TypeScript, Supabase, PostgreSQL, MongoDB, TanStack Query, AWS

Tekus July 2023 – July 2025

Frontend Developer

- Built an Angular component library that reduced code repetition by **50%** and sped up kiosk development by **40%**.
- Redesigned the frontend of the internal translations platform, improving its UI/UX and reducing the time the team spent creating translations.
- Delivered a key project in two weeks by narrowing the scope with the client.

Stack: Angular, TypeScript, SASS

Leanware March 2022 – March 2023

Full-Stack Developer

- As the sole developer on the project, built a document templates module that cut preparation time for recurring documents by **80%**, meeting every deadline.
- Built an event tracking module that notifies clients of legislative changes across several countries.
- Shipped UI improvements and new features that raised customer satisfaction.

Stack: Angular, React, TypeScript, Express, NestJS, MySQL, PostgreSQL

Interactive Pi May 2021 – March 2022

Full-Stack Developer

- Built 2 MVPs with Node.js: a fiscal calculations platform (Express + MongoDB) and an e-learning platform (Next.js + MongoDB).
- Coordinated a two-person team customizing the Chamilo LMS for ANALDEX (HTML/CSS templates), with a **95%** customer satisfaction rate.
- Built **60%** of an application for the Colombian Ministry of Education and an interactive web game that increased conversion by **20%**.

Stack: Angular, React, Next.js, Express, MongoDB, PostgreSQL

SKILLS

Languages	TypeScript, JavaScript, HTML, CSS/SASS
Frontend	React, Next.js, Angular, SvelteKit, Tailwind CSS, shadcn/ui, HeroUI
Backend & data	Node.js, Express, NestJS, Supabase, PostgreSQL, MySQL, MongoDB
Design & tools	Figma, design systems, Git, AWS (S3, Amplify), Postman
Spoken languages	Spanish (native), English (B2)
